To the Verasolve team,

I wanted to take a moment to express my appreciation for the fantastic work you have done for OMNITEC Solutions, Inc. Since beginning our relationship in 2013, Verasolve has helped us with a number of public relations and marketing initiatives to better refine our messaging, increase our web traffic, and grow our thought leadership profile.

The Verasolve team helped us to revamp the messaging on our website for our Media Analysis division and drafted several case studies highlighting some of our most prominent projects, including our work with Defense Media Activity (DMA) and on National Institutes of Health's (NIH) National Database for Autism Research (NDAR). In June of 2014, Verasolve was able to generate a number of press placements on the announcement of two major contract wins for U.S. Navy Naval Air Systems Command (NAVAIR) and Defense Media Activity (DMA), Defense Enterprise Media Systems (DEMS) Office, and the Office of the Secretary of Defense for Public Affairs (A/SD [PA]). These media placements helped to drive traffic to our website and increase overall brand awareness.

Earlier this year, I was thrilled to be awarded the *Washington Business Journal's* Minority Business Leader Award. This award honors the Greater Washington D.C. region's top minority business owners and leaders. As part of their work to continually increase OMNITEC's thought leadership profile, Verasolve sought out this award opportunity and brought to my attention. Through a collaborative effort, their team drafted a compelling nomination on my behalf and I was honored to be selected as part of an incredible group of honorees.

Verasolve strives to really understand our internal culture, long-term goals, and vision for the future. I would recommend their team to anyone looking for a collaborative agency.

Sincerely,

A handwritten signature in black ink, appearing to read "Morris Brown", written in a cursive style.
