

Dear Ethan,

I wanted to take a moment to thank you and the Verasolve team for the tremendous work you all did for us. Working with Verasolve was an outstanding experience, and we greatly appreciate your hard work and the insight you provided to our company.

Over the course of four months, Verasolve demonstrated their expertise and professionalism while completing a research project for us. The team strove to satisfy our needs by conducting intense research, developing and conducting customer surveys and creating an in-depth report and analysis. The team brought forth valuable insight which helped facilitate our mission. Working with Verasolve was effortless since the team was always flexible and responsive throughout the project.

We are extremely happy with the outcome of this project, and we are grateful for Verasolve's guidance. BIPAC will gladly recommend Verasolve to other companies that are looking for quality research and insight.

Sincerely,
Melissa Craig
BIPAC Vice President, Member Relations
